A Brief History of My Pussy (as a title)

I'll fuck you anytime I want to with your white pussy and my black cock.

a girl who mails her pussy to a writer she respects

"it would be cool if we could still feel what was happening to our genitals i would just suck you and stroke you non stop"..maybe she imagines that it would be like that but she discovers it isn't.

Rebecca in a coma at the hospital and them checking and she's a virgin and me telling Rebecca's mom that we were waiting till we were both ready and them saying well we don't want her pussy to go to waste so would you like to fuck it? So I try to get it up to fuck her beautiful body with a flatlined brain and I finally get it up using my hands and I get her wet with saliva on my finger and love her so sweetly and cum in my baby's pussy and it doesn't go to waste.

X title: "The Absurdity of Sex"

oh baby I'm gonna suck you off so good

I'm about to cum!

Cum in my pussy! Cum in my pussy!

I'm about to cum! I'm cumming!

I can feel you cumming in my pussy! Oh fuck I can feel your cum.

X Oh, how I long to be in a woman's pussy. (opening sentence)

Shall we go to your house?

No, let's talk here.

About what?

Let's talk about your pussy, for starts.

a book called bloody pussy

Opening line:

Some stories should not be told in books. In fact, some stories should not be told at all.

This is one of those stories.

Sex slave human trafficking..tell a sad and realistic story..maybe she even gets away when she's older and goes back to her family but she can't feel at home so she leaves and goes to the dream place she's always wanted to go..the beach..she gets to see it for the first time in her life..then she kills herself by walking into it and into it and into it..she swims so far she can't get back..night falls..and she thinks about how meaningless her life was..the occasional girl gets away but most die in the house..she wants to die like the girls she could never help..alone, forgotten, drops in the sea guys that like to beat, rape, torture and kill (and sometimes even fuck) babies, girls, teens, and women..each on different levels of this mansion that's overgrown with ivy and trees..structure it as a long chapter of each one of the levels..maybe they fuck aliens too?.. No, not with the sad tone I want to deliver. .call it Four Stories..?..and its about the man's addiction..it's the man's (customer's) story? And not just what he's drugging/sexing to get away from, but the life he escapes from by doing so..at the end after the ultimate thrill of fucking an infant, he goes home to his wife and his job and he is unsatisfiable by normal life anymore and he says he's not going to be able to make it like a man with normal morals..ubermensch..ted bundy

He is terrified of his normal family and calls out the sigs of his behavior over dinner.
